Tyler has been the best professor I've had in the OSU math department. The material was well organized and communicated clearly, lectures never felt rushed or left me feeling lost, and he was always willing to help students both in class and in office hours.
Very knowledge and kind instructor! Exams and homework were challenging but fair. I think it would be better if more information from lectures was posted to Carmen so it would be easier to go back in case something was missed, but overall this class was very well-taught!
Dr. Genao is very caring about students and the course environment is very inclusive. He is a well organized and passionate instructor.
This course brought me a strong interest in number theory.
